Quality, Strength & Comfort

Hand crafted to century-old specifications, the tradition of the South continues with this uniquely designed and uncommonly comfortable collector's item. Brumby® Rockers have become synonymous with creating lasting memories. Whether you're rocking a new baby to sleep or relaxing with your family on your front porch, Brumby® Rockers have been an integral part of family Heritages for over a century.

Using cane from the Orient, the backs and seats are expertly hand-caned in a traditional Herringbone pattern adding a stylish and artistic design to every chair. The final steps in the production process include adding multiple layers of finish and lacquer to ensure a handsome polish. Brumby® Rockers are assembled using hand wedged techniques allowing the wood to give with the change in temperature and last for generations.

The Brumby® Rocker Collection comes in multiple sizes with matching footstool based on the original Brumby® Jumbo Rocker specifications. Our collection of Brumby® Rockers offers three versatile sizes for our customers:

All pieces of the Brumby® Rocker Collection come in 8 different finishes: Natural, Golden Oak, Early American, Southern Heritage and Provincial. Chairs can also be painted in white enamel, black and shutter green.

History

When the Brumby family of Marietta, GA handcrafted its first rocking chair shortly after the end of the Civil War, they never imagined that over a century later they would still be producing these family heirlooms. Made with the same care and to the 19th century specifications, these classic rockers carry the seal of the original Brumby Chair Company of Marietta, Georgia. Since 1875, Brumby® Rockers have adorned American porches of large antebellum homes, sprawling verandas of luxury resorts and The Truman Balcony of the White House.

This century old southern classic is the epitome of craftsmanship, comfort and elegance. Still produced by the great grandchildren of one of the original founders, Thomas M. Brumby, this great southern heritage continues. Tradition has it that you had to work two weeks to buy a Brumby Rocker, but once you had it, you had it for life.

The Brumby® Jumbo Rocker

The rocking chair we all remember...designed by the Brumby family of Marietta in the early 19th century, the Brumby Jumbo is believed to be the oldest product in Georgia still in production. Because of its generous proportions, the Jumbo became famous for its craftsmanship, comfort and elegance. The Brumby Jumbo Rocker of present maintains all the same specifications of the classic rocker. The extra tall back posts are steam bent to cradle the back and curve around the shoulders for added comfort and support. The 36" runners are bent to ensure an even rock and attached with solid brass carriage bolts for added strength. These classic rockers are built to decorate porches in the summer and hearths in the winter. Constructed with the finest solid Appalachian Red Oak, Brumby Rockers are designed to withstand drastic changes in humidity and temperature to last for generations.
